

HeidiTech AG

Expense Reimbursement Policy (ERP)

Document ID: HT-ERP-2026-01

Version: 1.3

Effective date: 15 January 2026

Owner: Finance Operations (FinOps)

Classification: Confidential — Internal Use Only

This Policy is issued by HeidiTech AG and is binding on all persons within its scope. It forms part of the Company's internal governance framework.

Article 1 — Purpose and Scope

1.1 This Expense Reimbursement Policy (the “Policy”) sets out the rules governing the reimbursement by HeidiTech AG (“HeidiTech”, the “Company”) of expenses incurred by eligible persons in the course of performing duties for the Company.

1.2 This Policy applies to (i) all employees of HeidiTech, and (ii) contractors or other persons only to the extent expressly provided in their respective engagement agreements or travel authorizations.

1.3 This Policy covers business expenses incurred in Switzerland and abroad, including (without limitation) transportation, lodging, meals and incidentals, and other costs reasonably required for legitimate business purposes, subject to the limits and conditions set out herein.

Article 2 — Definitions

For the purposes of this Policy, the following definitions apply:

- “Business Purpose” means a demonstrable and legitimate purpose directly connected to HeidiTech's business activities, projects, or obligations.
- “Expense” means an out-of-pocket cost incurred by an eligible person for a Business Purpose and not of a personal nature.
- “Receipt” means documentary evidence of purchase or payment identifying (at minimum) the vendor, date, description/category, total amount, and currency.
- “Itemized Invoice” means a detailed invoice listing the individual charges (e.g., hotel folio including room rate and taxes).
- “Per Diem” means a fixed allowance for Meals and Incidentals granted pursuant to an approved travel authorization as described in Article 6.
- “Expense Report” means the claim submitted through the HeidiTech Expense Portal (HT-Expenses) or another approved channel.
- “Approver” means the person(s) authorized under Article 9 to approve expenses.

Article 3 — General Principles

3.1 Necessity and Reasonableness. Expenses shall be reimbursed only if they are necessary for and proportionate to the Business Purpose. The Company may reduce or deny reimbursement for expenses deemed excessive, imprudent, or avoidable.

3.2 Cost-Efficient Choices. Eligible persons are expected to choose cost-efficient options that do not materially compromise safety, operational requirements, or the Business Purpose.

3.3 No Double Reimbursement. Expenses shall not be reimbursed if they are (i) paid directly by HeidiTech, (ii) reimbursed by a third party (e.g., a client), or (iii) covered by a Per Diem or another allowance, unless explicitly authorized in writing by Finance Operations.

3.4 Compliance. All claims must comply with this Policy, applicable laws and regulations, and any project- or client-specific requirements. Where requirements conflict, the stricter rule applies, unless an exception is

granted under Article 14.

Article 4 — Transportation

4.1 Reimbursable transportation expenses include, subject to Article 3:

- (a) public transport tickets (train, tram, bus) for business travel;
- (b) economy class air travel for flights under six (6) hours; premium economy may be reimbursed if approved for flights of six (6) hours or longer;
- (c) taxis and ride-hailing services where public transport is impractical due to time, safety, heavy equipment, medical reasons, or comparable justification;
- (d) rental cars where justified by operational needs (e.g., remote site access, multiple stops, transporting equipment).

4.2 Non-reimbursable transportation expenses include, without limitation:

- (a) fines, penalties, surcharges for violations, and similar charges;
- (b) personal upgrades and discretionary services unrelated to the Business Purpose;
- (c) first-class train tickets within Switzerland where a functionally equivalent second-class option exists, unless pre-approved in writing by the relevant Approver with documented justification.

4.3 Supporting documentation. Tickets, boarding passes, or equivalent proof of travel must be provided. For taxis/ride-hailing, the route or justification must be recorded in the Expense Report.

Article 5 — Lodging

5.1 Reimbursable lodging expenses are limited to standard accommodations reasonably suited to the destination and Business Purpose, including mandatory lodging taxes and fees.

5.2 Standard caps (per night, excluding refundable deposits):

- (a) Switzerland: CHF 220;
- (b) European Union: EUR 220;
- (c) United States: USD 250.

5.3 Exceeding caps. Amounts above the caps in Section 5.2 require (i) written justification in the Expense Report and (ii) prior or subsequent approval by the relevant Approver. The Company may limit reimbursement to the cap if justification is insufficient.

5.4 Non-reimbursable items. Mini-bar, pay-per-view entertainment, spa services, and other non-essential upgrades are not reimbursable unless expressly approved in writing for a Business Purpose.

5.5 Documentation. An Itemized Invoice is required for all lodging expenses.

Article 6 — Meals and Incidentals (M&IE;)

6.1 General rule. Meals and incidental expenses may be reimbursed in accordance with either (A) receipt-based reimbursement (default) or (B) Per Diem (only where expressly authorized).

6.2 Receipt-based reimbursement (default).

- (a) Reimbursable: breakfast, lunch, and dinner during business travel, and meals incurred for bona fide business meetings; non-alcoholic beverages; customary tips up to ten percent (10%).
- (b) Non-reimbursable: alcoholic beverages (subject to Article 7), meals for family members or non-business guests, and room service surcharges unless justified by operational constraints (e.g., late arrival with no alternatives).

6.3 Meal caps (receipt-based). Unless an exception is granted under Article 14, the following caps apply per person and per day:

- (a) Breakfast: up to CHF 20;
- (b) Lunch: up to CHF 35;
- (c) Dinner: up to CHF 60;
- (d) Daily aggregate cap (all meals combined): CHF 95.

6.4 Exceeding caps. Where a cap is exceeded, the claimant must provide a written justification and obtain approval by the relevant Approver; otherwise, reimbursement may be limited to the applicable cap.

6.5 Per Diem (where authorized). When Per Diem is authorized by travel authorization or project rules, the following rates apply for full travel days:

- (a) Switzerland: CHF 70;
- (b) European Union: EUR 75.

6.6 Under Per Diem, meal receipts are not required; however, proof of travel (e.g., ticket, boarding pass, hotel invoice) remains mandatory. Alcohol remains non-reimbursable unless Article 7 applies.

Article 7 — Client Entertainment

7.1 Client entertainment expenses (including meals) may be reimbursable only if they (i) serve a clear Business Purpose, (ii) are reasonable, and (iii) are approved in accordance with Article 9.

7.2 Required details. The Expense Report must include the names and roles of attendees and a concise description of the Business Purpose.

7.3 Alcohol. Alcohol may be reimbursable solely in the context of approved client entertainment and only where explicitly authorized by the relevant Approver. Absent such authorization, alcohol is non-reimbursable.

7.4 Cap. Unless approved by a Director (or higher), client entertainment shall not exceed CHF 150 per person (including drinks).

Article 8 — Other Reimbursable Expenses

8.1 Subject to Articles 3 and 10, the following may be reimbursable when required for a Business Purpose:

- (a) essential travel supplies (e.g., adapters, cables) purchased due to unforeseen operational needs;
- (b) business-related communications charges (e.g., internet fees) where necessary and not otherwise provided by the Company.

8.2 Any expense of an unusual nature or significant amount should be pre-approved in writing by the relevant Approver.

Article 9 — Approval Authority

9.1 Approval thresholds are determined by the total amount of the Expense Report (or a logically grouped set of expenses where appropriate):

- (a) under CHF 300: approval by line manager;
- (b) CHF 300 to CHF 1,500: approval by line manager and department budget owner;
- (c) over CHF 1,500: approval by Director (or higher).

9.2 Finance Operations performs a compliance check for all claims and may request additional information or documentation.

Article 10 — Required Documentation and Recordkeeping

10.1 Mandatory receipt fields. For receipt-based reimbursement, a Receipt must include: vendor name, date, item/service description (or category), total amount and currency, and VAT/tax details where available (preferred for Switzerland and EU).

10.2 Missing or incomplete receipts. If a receipt is missing or incomplete, the claimant must provide a written explanation and may be required to provide alternative proof (e.g., bank/credit card statement). The Company reserves the right to deny reimbursement where evidence is insufficient.

10.3 Additional details for specific expenses:

- (a) meals exceeding CHF 60 on a single receipt: attendee(s) and Business Purpose are required;
- (b) client entertainment: attendee list, Business Purpose, and approval reference are required;
- (c) taxi/ride-hailing: route and/or justification are required;

(d) lodging: Itemized Invoice required in all cases.

10.4 Recordkeeping. Expense documentation must be retained in the Expense Portal or approved repository for audit and compliance purposes, subject to the Company's retention schedule.

Article 11 — Submission Procedure and Deadlines

11.1 Submission channel. Expenses must be submitted via HT-Expenses or, where portal access is unavailable, via an approved alternative channel designated by Finance Operations.

11.2 Deadline. Expenses must be submitted within thirty (30) calendar days after the expense date.

11.3 Late submissions. Claims submitted more than thirty (30) days and up to sixty (60) days after the expense date require line manager approval and written justification. Claims submitted after sixty (60) days are generally rejected unless an exception is approved by the Finance Director under Article 14.

Article 12 — Reimbursement Method and Processing Times

12.1 Payment method. Approved reimbursements are paid to the claimant's designated salary account or other approved payment method on file with the Company.

12.2 Processing time. The Company aims to process reimbursements within ten (10) business days following final approval. If corrections or additional information are required, processing times restart upon receipt of the complete and corrected submission.

Article 13 — Currency and Exchange Rates

13.1 Expenses may be submitted in the original currency. The Expense Portal may convert amounts automatically; claimants should not manually convert unless instructed by Finance Operations.

13.2 Exchange rates. HeidiTech applies monthly average exchange rates published by the Swiss National Bank (SNB) where available, otherwise a reputable benchmark selected by Finance Operations.

Article 14 — Non-reimbursable Expenses; Exceptions

14.1 Non-reimbursable expenses include, without limitation: personal expenses (including toiletries and personal clothing), traffic fines and penalties, unauthorized luxury services or upgrades, and expenses lacking sufficient documentation or Business Purpose.

14.2 Exceptions. Any exception to this Policy must be approved in writing by the Finance Director (or delegate). Exception requests must specify the expense, justification, and the applicable budget source. Approval may be granted subject to conditions.

Article 15 — Governance, Interpretation, and Updates

15.1 Interpretation. Finance Operations is responsible for interpreting this Policy and may issue guidance to ensure consistent application. In case of doubt, claimants must consult Finance Operations prior to incurring the expense where practicable.

15.2 Audits. Expense claims may be audited. Claimants must cooperate with audit requests and provide supporting records as required.

15.3 Updates. The Company may amend this Policy at any time. The version and effective date indicated on the cover page apply. Updates are effective upon publication in the Company's designated internal repository.
